DETAILED ACTION

This office action is in response to the amendment filed January 4, 2006. In accordance with the amendment, claim 1 has been amended, claims 3 and 4 have been canceled, and new claims 13 and 14 have been added.

Claims 1, 2, and 5-14 are pending.

Election/Restrictions

- I. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 1 and 2, drawn to a tunable filter with specific optical components, classified in class 385, subclass 37.
 - II. Claims 5-14, drawn to a method for making a tunable filter, classified in class 385, subclass 37.

The inventions are distinct, each from the other because of the following reasons:

2. Inventions II and I are related as process of making and product made. The inventions are distinct if either or both of the following can be shown: (1) that the process as claimed can be used to make other and materially different product or (2) that the product as claimed can be made by another and materially different process (MPEP § 806.05(f)). In the instant case the product as claimed can be made by a materially different process, for example, coating an oxide film over the surface of the polymer waveguide, exposing the photoresist using UV light, or forming the micro-grating by a different process, such as implanting outside elements to form the grating.

Art Unit: 2874

3. Because these inventions are distinct for the reasons given above and the search required for Group II is not required for Group I, restriction for examination purposes as indicated is proper.

4. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

5. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
